No dark line
Seamless edges
High-end look

WHAT IS COLOR CORE?

Color Core is a type of laminate where the color runs consistently through the entire thickness of the material, rather than being limited to the surface layer.

This eliminates visible edges, creating a seamless, refined look—no need for edge banding or additional painting.

WHY CHOOSE EPOCH?

With over **200** of our collection featuring Solid Core laminates, Epoch offers premium surfacing materials designed for durability, aesthetic excellence, and versatility.

Our carefully curated range of colors and finishes ensures a high-quality, long-lasting solution for any space.
