CERTIFICATION

PoliLam has achieved GREENGUARD AND GREENGUARD GOLD certification for indoor air quality.

PoliLam has achieved Green Label Singapore certification, for low emissions and low toxicity.

PoliLam products have completed a number of ISO certifications.

PoliLam products have achieved EN Standard certifications.

PoliLam has achieved HPD (Health Product Declaration) certification, ensuring transparency in its material health by disclosing the ingredients and their potential health impacts, further demonstrating its commitment to safe, sustainable building materials.

PoliLam has achieved FSC certification, demonstrating its commitment to responsible forest management and sustainability by ensuring that its materials come from responsibly sourced, environmentally and socially responsible forests.

Please contact us to receive a copy of our certification and test report.

ACE Surfaces™

Soft-Touch Nanotech Matte Surface

We introduce nanotechnology with our **ACE Surfaces™** for one simple reason: to reduce life's trivial strains to improve our end-users' quality of life.

Whether subjected to light or heavy use, **ACE Surfaces™** are engineered to leave no trace. Our **ACE Surfaces™** invite you to experience a better quality of life.

Appealing to the senses, captivating with bold designs and a touch that is as smooth as baby soft skin. **ACE Surfaces™** are the surfaces of the age.

Their fingerprint resistance makes cleaning a breeze. Most importantly, ultra-low formaldehyde emissions contribute to a healthy lifestyle for ourselves and the environment.

ACE Premium®

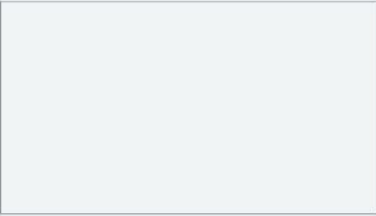

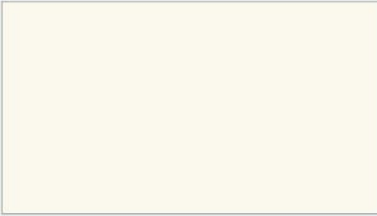

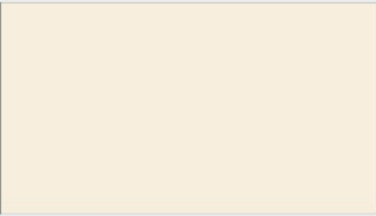

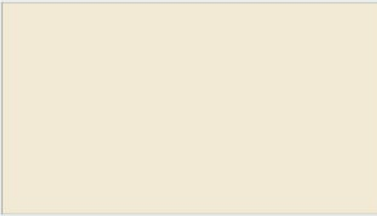

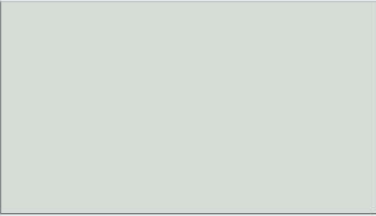

-  Anti-Fingerprint
-  Anti-Bacterial
-  Soft Touch
-  Easy Clean
-  Hydro-Repellent
-  Resistant to Dry-Heat
-  Low Light Reflectivity
-  Abrasion Resistant
-  Extremely Matte
-  Multiple Designs
-  Design Enhancement
-  Environmental Friendly
-  Intensity and Color Depth
- CH₂O** Formaldehyde Free Surface
-  Resistant to Acid-Based Solvents

The Warm Spectrum — Power & Passion

The warm tone (red, orange, yellow) speaks of energy, confidence, and direct emotion.

Red Classic = the power of expression and courage

Yellow Classic = the light of brightness and new beginnings

Orange Classic = the warmth of hospitality and connection

These hues form the heartbeat of a space — once placed within a project, they create an energy that is instantly felt.

1	 RGB : 247, 185, 57 HEX : #F7B92B CMYK : 0-25-76-3
2	 RGB : 215, 133, 38 HEX : #D7852A CMYK : 0-36-73-15
3	 RGB : 216, 135, 154 HEX : #D8BDA CMYK : 0-35-28-15
4	 RGB : 189, 38, 53 HEX : #BD2435 CMYK : 0-80-71-25
5	 RGB : 125, 62, 66 HEX : #7D3E12 CMYK : 0-50-47-50
6	 RGB : 158, 168, 228 HEX : #9EBCE4 CMYK : 30-17-0-10

D

The Cool Spectrum — Calm & Confidence

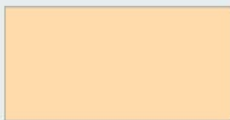

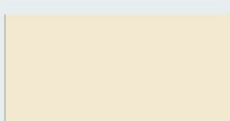

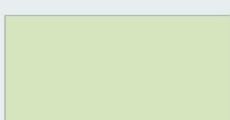

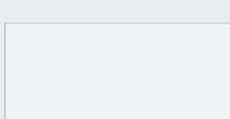

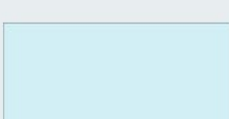

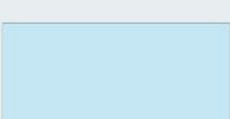

The cool tone (blue, navy) speaks of calm, clarity, and assurance.

Blue Classic = clarity, sincerity, and confidence

These hues create the mindscape of a space — generating an atmosphere of calm, and opening the way for designers to craft balance and harmony.

In today's world of abundant resources and high standards, we aim for more than just functionality and beauty. We strive for a perfect blend of fine craftsmanship and natural inspiration.

Each product honors the materials and design, providing a luxurious experience in harmony with nature.

Pairing different core materials with various surface paper shades based on their depth. By carefully selecting the right core to match the surface, we ensure a seamless and cohesive appearance. This attention to detail creates a unified look, enhancing the overall aesthetic and adding a touch of sophistication to any space.

3 MM Water Resistance Panel

More than a design solution, this panel is a thoughtfully engineered material for care demanding environments, combining Class A fire safety with hygienic performance.

- Class A Fire-Resistant and Fire Retardant
- Water and Moisture Resistance
- Fast Installation
- Environmental Friendly
- Design Enhancement
- Anti-Bacterial

A visual map of wood tone and grain expression, for professionals who choose materials with intention, understanding how tone and grain shape a space.

Batten Matter is an exclusive edition, available only for PLT DECOR CO., LTD.

Product samples are available upon request. Please contact our sales representative or scan the QR code for more information.

High-Performance Surface Layer

Water and moisture resistant, With high-quality film technology, the surface material is non-absorbent, providing excellent moisture protection and easy maintenance

WPC Premium-Grade Polymer

Engineered for superior strength, flexibility, and resistance to cracking, this material is designed to withstand the harshest weather conditions. Eliminate concerns about termite or insect damage with our advanced wood-plastic composite technology, ensuring durability and reliability.

Termite Resistant

Non-combustible

Water Resistant

Impact Resistant

BATTEN MATTER

The Batten are available in 6 profiles and 12 color shades

Joint

The joints are available in 4 profiles and 12 color shades

Laminate

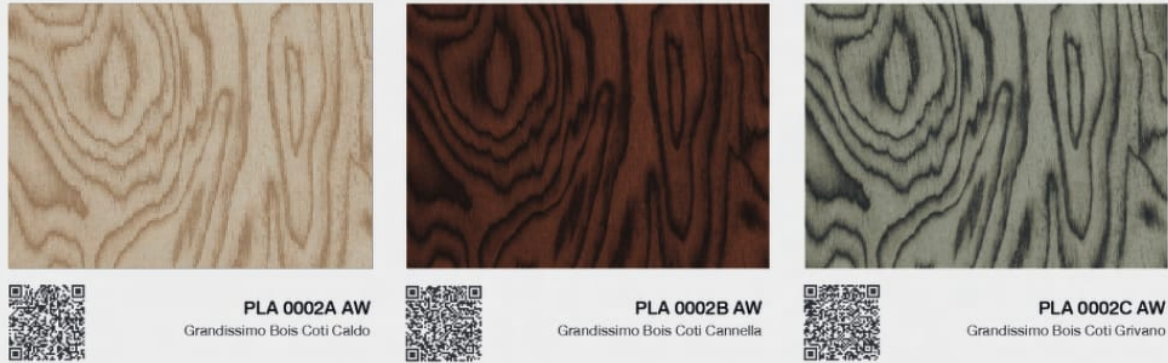

The Batten can be matched with prefabricated walls in the same color, or with stone or fabric patterns, adding a creative touch to your design.

Recrafted Nature

PoLiArt Veneer Collection reimagines nature with freedom and precision.

Every grain, every tone, customizable to create the unique warmth of wood for any project.

Recrafted Nature

PoLiArt Veneer Collection reimagines nature with freedom and precision.

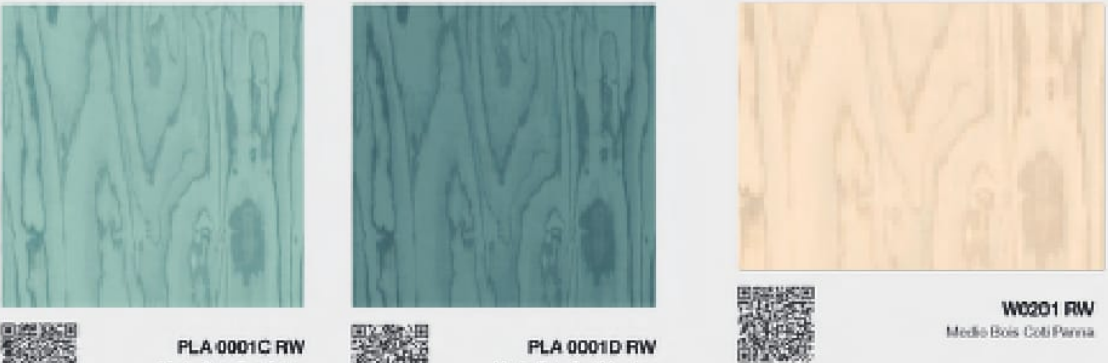

Every grain, every tone, customizable to create the unique warmth of wood for any project.

Recrafted Nature

PoLiArt Veneer Collection reimagines nature with freedom and precision.

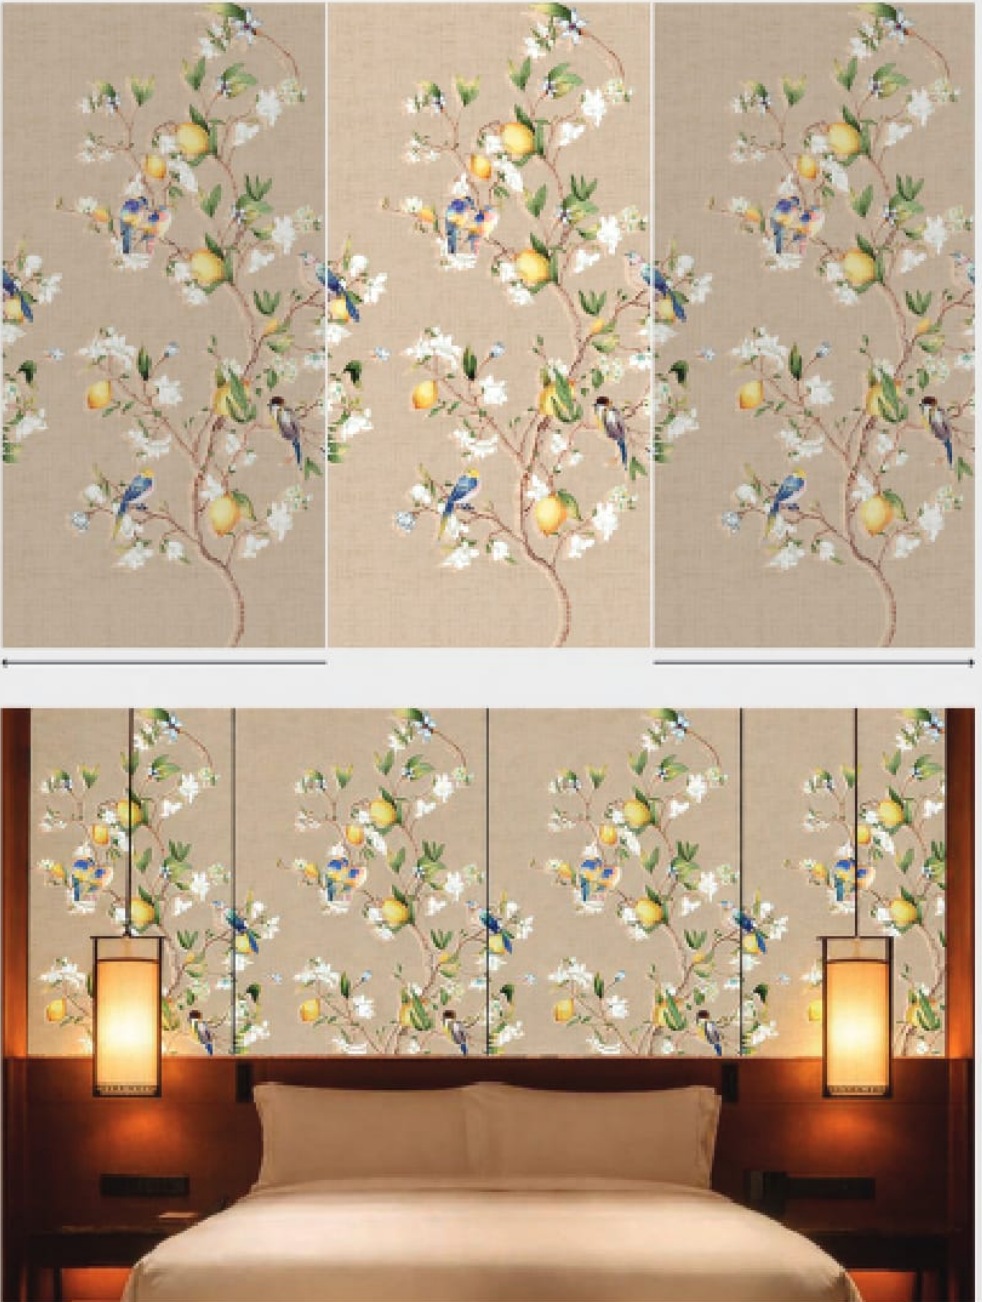

Every grain, every tone, customizable to create the unique warmth of wood for any project.

Recrafted Nature

Limitless canvas for creativity — from digital graphics to photography, logos to bespoke patterns.

From screen to surface, every design becomes a tangible experience.

PoLiArt

Recrafted Nature

Limitless canvas for creativity — from digital graphics to photography, logos to bespoke patterns. From screen to surface, every design becomes a tangible experience.

PoLiArt

Digital Print Production Process

*Can be applied to all PoLiLam products

Step 1: Select Product Type & Sizes

Step 2: Design and Print

- Mosaic Assembly
- Color Adjustment
- Color Separation
- Optimization & Printing

Step 3: Production

After the pressing process, the boards are carefully cooled, precision-cut to the desired specifications, and thoroughly inspected to ensure they meet stringent quality and performance standards, including fire resistance and durability.

File Requirements

- The file minimum resolution : 150 dpi
- File size required : 4x8 ft, 4x10 ft (Scale 1:1)
- The factory will print exactly according to the file provided by the customer. If the file is unclear or pixelated, the factory will not be able to make any corrections or enhancements.

Color & Pattern Notes

- Laminate codes may be selected from the PoLiLam catalogue. Please note that certain codes are made-to-order and must be confirmed with the Sales Executive.
- Slight color variations may occur due to the digital printing process. For precise color matching, Pantone references are recommended.

Print Quality

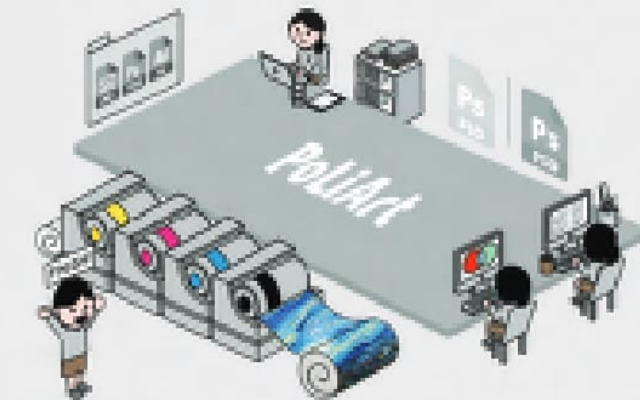

Custom print laminate

Highly Decorative

Easy-to-install Directly Over Most Surfaces

Graphics in Actual Size (1:1)

Digital Print technology in the laminate industry allows for high-quality, customizable designs to be printed directly onto decorative paper layers used in laminates.

This technology has revolutionized the industry by enabling manufacturers to create highly detailed, realistic textures and patterns that replicate natural materials such as wood, stone, textiles, and graphics.

PoliLam

THE WOOD MATRIX

#LIGHT

BRIGHT, LUMINOUS TONES THAT CREATE
AN OPEN AND AIRY ATMOSPHERE.

#SOFT

SUBTLE PATTERNS WITH GENTLE CONTRAST
FOR A CALM, REFINED PRESENCE.

#BOLD

HIGH-CONTRAST PATTERNS WITH STRONG
SCALE OR TEXTURE FOR VISUAL IMPACT.

#DARK

DEEP, RICH TONES THAT BRING DEPTH
AND A DRAMATIC MOOD.
